How Palantir Partnered With Rewriting the Code to Achieve 5X More Intern Program Applicants from RTC Women

“Being able to engage with RTC’s intersectional communities has a huge amount of value. And even outside of our diversity hiring goals, they’re having a huge impact on our pipelines generally.”

Amy Jordan,

Recruiting Programs Manager, Palantir

OVERVIEW

Palantir wanted to encourage more diverse talent to apply to its intern, new grad, and scholarship programs to keep its tech talent pipeline full. Palantir partnered with Rewriting the Code and achieved a 5X increase in intern program applicants from RTC women.

CHALLENGE

The Palantir recruitment team wanted to expand their reach to engage diverse talent. They looked for a strategic partner that would work with them collaboratively, offer a customized approach, and provide guidance and feedback.

SOLUTION

Palantir engaged RTC in almost all of its program offerings, including RTC virtual events, custom affinity group events, and on-campus, in-person events. The Palantir recruitment team also used the RTC platform to promote their own events to RTC’s vast talent pool. Palantir and RTC collaborated closely on strategy and gained new insights into best practices.

RESULTS

Thanks to the strong partnership between Palantir and RTC, Palantir hired 66 RTC members in three years and achieved a 460% increase in Palantir Path applicants from RTC members.
